2020 Bicycle and Pedestrian Plan Recommendations

3.1 U.S. Department of Transportation (U.S. DOT) Bicycle and Pedestrian Policy

The MPO encourages the local governments and the Alabama Department of Transportation to follow the current U.S. DOT policy regarding bicycle and pedestrian facilities. The guidelines require bicyclists and pedestrians to be accommodated in the design of new and improved transportation facilities unless certain limited conditions are present.

Almost every transportation improvement is an opportunity to enhance the safety and convenience of walking and bicycling. Bicycle and pedestrian needs must be given "due consideration" under Federal surface transportation law (23 U.S.C. 217(g)(1)), and this should include, at a minimum, a presumption that bicyclists, pedestrians, and persons with disabilities will be accommodated in the design of new and improved transportation facilities. In the planning, design, and operation of transportation facilities, bicyclists, pedestrians, and persons with disabilities should be included as a matter of routine, and the decision to not accommodate them should be the exception rather than the rule.

Bicycle and pedestrian ways shall be established in new construction and reconstruction projects in all urbanized areas unless one or more of three conditions are met: (1) bicyclists and pedestrians are prohibited by law from using the roadway. In this instance, a greater effort may be necessary to accommodate bicyclists and pedestrians elsewhere within the right of way or within the same transportation corridor; (2) the cost of establishing bikeways or walkways would be excessively disproportionate to the need or probable use. Excessively disproportionate is defined as exceeding twenty percent of the cost of the larger transportation project; and (3) where sparsity of population or other factors indicate an absence of need. *United States Department of Transportation Policy Statement on Bicycle and Pedestrian Accommodation Regulations and Recommendations*, Signed on March 11, 2010 and announced March 15, 2010

3.2 Americans with Disabilities Act (ADA) Issues and Existing System Gaps

The MPO encourages the local governments and the Alabama Department of Transportation (ALDOT) to upgrade areas of the transportation network that do not meet current ADA standards and to add non-motorized facilities to close existing gaps in the transportation network. The local governments and ALDOT have prepared transition plans that identify ADA transportation issues and schedule the necessary work to bring the network into compliance with the current law. The MPO Bicycle and Pedestrian Committee identified gaps in the transportation network that when closed, will make bicycling and walking safer and more convenient. The ADA issues and sidewalk gaps are mapped on **Figure ___**. Areas around schools and bus stops, and routes that connect neighborhoods with shopping and employment centers should be given a high priority.

3.3 General Road Improvement Projects

Original

The MPO encourages the local governments and the Alabama Department of Transportation (ALDOT) to add non-motorized improvements to all transportation projects, regardless of funding source. Unlike federally-funded projects, locally and state-funded projects do not require non-motorized transportation consideration. These types of improvement, generally, do not add substantial cost to a project. Adding the facilities as part of a larger project also minimizes disruptions. In the recent past, the City of Tuscaloosa has included pedestrian facilities, and sometimes bicycle elements, in their locally-funded transportation projects.

Tuscaloosa City Alternative

The MPO encourages the local governments and the Alabama Department of Transportation (ALDOT) to consider adding non-motorized improvements to transportation infrastructure reconstruction projects, regardless of funding source. Unlike federally-funded projects, locally and state-funded projects do not require non-motorized transportation consideration. Projects that already include earthwork and concrete construction generally, will not have a substantial cost increase due to the addition. Including the facilities as part of a larger project also minimizes disruptions. In the recent past, the City of Tuscaloosa has included pedestrian facilities, and sometimes bicycle elements, in their locally-funded transportation projects.

3.4 Stand-Alone Projects

The MPO encourages the local governments and the Alabama Department of Transportation (ALDOT) to build non-motorized transportation projects independent of other projects. The entities can use the un-funded section of this plan as a guide for selecting projects. The Bicycle and Pedestrian Committee utilized input from local groups and individuals, as well as reviews of current conditions to choose projects for that section. Possible funding sources include local governments, the University of Alabama, ALDOT, federal grants, and private grants.

Resolution MPO 2020-7

**Amending the
*FY 2020 - 2023 Transportation Improvement Program***

WHEREAS, the Tuscaloosa Area MPO is the organization designated by the Governor of the State of Alabama as being responsible, together with the State of Alabama, for implementing the applicable provisions of 23 USC 134 and 135 (amended by the FAST Act, Sections 1201 and 1202, December 2015); 42 USC 2000d-1, 7401; 23 CFR 450 and 500; 40 CFR 51 and 93; and

WHEREAS, the Tuscaloosa Area MPO adopted the *FY 2020 - 2023 Transportation Improvement Program* (TIP) in 2019; and

WHEREAS, in order to be eligible for federal funding, transportation projects are required to be in the TIP; and

WHEREAS, the Alabama Department of Transportation has determined that the following changes need to be made to the TIP:

1. (Addition) 100071484 Easter Seals West Alabama Section 5317 JARC (Local) - Operating FY 2020; TR; 1/3/2020; \$4,240
2. (Addition) 100071530 Easter Seals West Alabama Section 5317 JARC (DHR Urban) - Operating FY 2020; TR; 3/1/2020; \$160,000
3. (Addition) 100071509 US-11 from Daimler Benz Boulevard to SR-5 - Add lanes (Structure removal); CN; 11/6/2020; \$500,000

WHEREAS, the Tuscaloosa Area MPO believes that the changes listed above will support the performance targets established by the State and supported by the MPO.

THEREFORE, BE IT RESOLVED, this **24th day of February 2020**, that the Tuscaloosa Area MPO does hereby amend the *FY 2020 - 2023 Transportation Improvement Program* to include the listed changes.

6.0 Transit System Planning

6.1 Tuscaloosa County Parking and Transit Authority System Planning

Purpose, Goal, and Objectives

The purpose of this task is to develop a transit system plan for the Tuscaloosa County Parking and Transit Authority. The goal is to provide a guiding document that will improve and expand the current transit service offered by the Transit Authority. The objectives are to:

1. Review current service provided by the Transit Authority
2. Develop detailed improvement and expansion ideas
3. Establish a reasonable budget
4. Provide a schedule

Previous Work (Fiscal Year 2019)

- No Previous Work - This is a new task.

Proposed Work

1. Bid Package - The Transit Authority staff will develop a bid package.
2. Bid Selection - The Transit Authority staff will review bid submittals and select the best firm.
3. Review of Draft Plan - The Transit Authority staff will review the inputs and draft plan.
4. Transit System Plan - The consultant will prepare a transit system plan.

Products

1. Bid package - October 2019
2. Transit System Plan - October 2020

Staffing

Tuscaloosa County Parking and Transit Authority staff
Consultant

Schedule

The work items in this task will be conducted throughout the fiscal year (10/01/19 - 09/30/20). If applicable, estimated completion dates are listed under the Products section.
