Tuscaloosa Area MPO 2050 Long-Range Transportation Plan Vision Statement and Goals

Vision Statement

It is the vision of the Metropolitan Planning Organization that the Tuscaloosa Area will have a well-planned, effective transportation system that promotes and sustains a fulfilling quality of life and a strong, competitive economy.

Goals

- (1) Safety - To achieve a significant reduction in traffic fatalities and serious injuries on all public roads
- (2) Infrastructure condition - To maintain the highway and airport infrastructure asset systems in a state of good repair
- (3) Congestion reduction - To achieve a significant reduction in congestion on the National Highway System
- (4) System reliability - To improve the efficiency of the surface transportation system
- (5) Freight movement and economic vitality - To improve the national freight and aviation network, strengthen the ability of rural communities to access national and international trade markets, and support regional economic development
- (6) Environmental sustainability - To enhance the performance of the transportation system while protecting and enhancing the natural environment
- (7) Reduced project delivery delays - To reduce project costs, promote jobs and the economy, and expedite the movement of people and goods by accelerating project completion through eliminating delays in the project development and delivery process, including reducing regulatory burdens and improving agencies' work practices
- (8) Complete Streets – To design and operate streets that enable safe use and support mobility for all users. Those include people of all ages and abilities, regardless of whether they are travelling as drivers, pedestrians, bicyclists, or public transportation riders.
